# TPMS+

OE Quality Sensors Plus Technology

## WEPRO DIAGNOSTIC & PROGRAMMING TOOL

Part Number: WP88

### Product Details:

- Built and Supported by Ateq
- Diagnose Any TPMS
- Different Programming Options:
  - Clone a Sensor Wirelessly
  - Clone a Sensor with Sensor ID
  - Create a New Sensor
- Placard Change
- Change Factory PSI Pressure to Allow Higher Load Tires
- Built in Re-Learn Procedures
- Built in OBD Tool

# TPMS+

*OE Quality Sensors Plus Technology*

## Why Choose WePro® Sensor Plus?

WePro® Sensor Plus is a universal fit TPMS solution, engineered by some of the top professionals in the automotive aftermarket industry. Designed as a single SKU system, Sensor Plus allows you to either create a new sensor or clone an existing one, ensuring you get back on the road safely and efficiently.

## Features and Benefits

- **5-year** limited warranty
- Vehicle Coverage - **98.9% true coverage**. The only vehicles we do not cover are before the year 2000 and we're current up to 2025 vehicles.
- Wireless programming capable of operating through 12-ply tires
- Fast programming speed
- Interchangeable valve stems available in rubber or aluminum
- Service kits available in black, grey, chrome, and black rubber

## RUBBER VALVE STEM

Part Number: WP002R-S

## ALUMINUM VALVE STEM

Part Number: WP002A-S

*OE Quality Sensors Plus Technology*

- Universal 1-SKU Solution - one sensor covers all 314mhz to 434.5mhz range. We future-proof our sensors by extending coverage to frequencies below 315 MHz and above 433 MHz.
- Compatible with 26" Wheels & 40" MT's - Most sensors are built only for OEM size fitment. Our sensors' increased signal strength make them compatible with aftermarket 26" wheels and 40" tires.
- 100% OE Match - Our coverage data is built to 100% OE match. This means you can mix and match our sensors with OE and they will still work.
- Multiple Sensor Programming - Save time by programming entire sets of sensors at once.
- Placard Change - Change tire pressure value threshold to avoid TPMS light from displaying when changing tires to a different load index
- ECU Unlock for Lexus & Toyota - Unlock Lexus & Toyota's OBDII ports when they're stuck in loop mode.

## SENSOR PLUS - SERVICE KITS

### BLACK VALVE STEM

Part Number: WPSA-B

### CHROME VALVE STEM

Part Number: WPSA-C

### GREY VALVE STEM

Part Number: WPSA-G

### RUBBER VALVE STEM

Part Number: WPSR-B
