XIEGE™

TIRE

XIEGE™ TIRE

TRACER R/T

XIEGE™ builds tires for drivers who rely on their gear from the first mile out to the road home. Developed for trucks, Jeeps, and SUVs, each tire combines bold design, reinforced construction, and terrain-focused capability across on-road and off-road conditions. Featuring an aggressive profile with function behind every detail, XIEGE™ is made for the complete route. **Out, through, and back.**

VEHICLE TYPE

Light Truck | SUV/Crossover

TIRE USE

Off-Road | All-Terrain

PERFORMANCE RATINGS

Wet Performance	Dry Performance	Off-Road	Comfort	Noise	Tread Wear
3.5	4	4.5	3	3	3.5

+1 888.763.2549 | XIEGETIRE.COM

FEATURES AND BENEFITS

INTERLOCKING CENTER BLOCKS

Tightly connected center blocks promote a stable footprint and controlled road behavior.

OPEN LATERAL CHANNELS

Wide pathways between tread blocks help move water, mud, and loose material away from the contact area.

SIPED TREAD BLOCKS

Strategically placed sipes add working edges across the tread for grip on wet and changing surfaces.

STAGGERED SHOULDER BLOCKS

Open, offset shoulder blocks strengthen the tire's off-road profile and help maintain traction at the outer edges.

AGGRESSIVE SIDEWALL LUGS

Raised sidewall elements extend beyond the shoulder for a bolder look and traction-focused geometry.

REINFORCED CONSTRUCTION

Two polyester plies, two steel belts, and two nylon plies create a reinforced tread package for demanding light-truck use.

TWO-PLY POLYESTER SIDEWALL

A two-ply polyester sidewall construction supports the tire across on-road and recreational off-road applications.

WEPRO®

DIAGNOSTIC & PROGRAMMING TOOL

PART NUMBER: WP88

PRODUCT DETAILS:

- Built and Supported by Ateq
- Diagnose Any TPMS
- Different Programming Options:
- Clone a Sensor Wirelessly
- Clone a Sensor with Sensor ID
- Create a New Sensor
- Placard Change
- Change Factory PSI Pressure to Allow Higher Load Tires
- Built in Re-Learn Procedures
- Built in OBD Tool

TPMS+

OE Quality Sensors Plus Technology

Why Choose WePro® Sensor Plus?

WePro® Sensor Plus is a universal fit TPMS solution, engineered by some of the top professionals in the automotive aftermarket industry. Designed as a single SKU system, Sensor Plus allows you to either create a new sensor or clone an existing one, ensuring you get back on the road safely and efficiently.

FEATURES AND BENEFITS

- **5-year** limited warranty
- Vehicle Coverage - 98.9% true coverage. The only vehicles we do not cover are before the year 2000 and we're current up to 2026 vehicles.
- Wireless programming capable of operating through 12-ply tires
- Fast programming speed
- Interchangeable valve stems available in rubber or aluminum
- Service kits available in black, grey, chrome, and black rubber

RUBBER VALVE STEM

Part Number: WP002R-S

ALUMINUM VALVE STEM

Part Number: WP002A-S

TPMS+

OE Quality Sensors Plus Technology

- Universal 1-SKU Solution - one sensor covers all 314mhz to 434.5mhz range. We future-proof our sensors by extending coverage to frequencies below 315 MHz and above 433 MHz.
- Compatible with 26” Wheels & 40” MT’s - Most sensors are built only for OEM size fitment. Our sensors’ increased signal strength make them compatible with aftermarket 26” wheels and 40” tires.
- 100% OE Match - Our coverage data is built to 100% OE match. This means you can mix and match our sensors with OE and they will still work.
- Multiple Sensor Programming - Save time by programming entire sets of sensors at once.
- Placard Change - Change tire pressure value threshold to avoid TPMS light from displaying when changing tires to a different load index
- ECU Unlock for Lexus & Toyota - Unlock Lexus & Toyota’s OBDII ports when they’re stuck in loop mode.

BLACK VALVE STEM

Part Number: WPB-A

CHROME VALVE STEM

Part Number: WPC-A

SILVER VALVE STEM

Part Number: WPS-A

RUBBER VALVE STEM

Part Number: WPW-R1
